The universal humidifier UB/P-8 is a product of the brand AIRWIN® of BOGA GmbH. It serves for fully automatic generation of aerosol mist from demineralised water according to the ultrasonic principle. The humidifier's output is controlled by an external hygrostat (ON – OFF) or by a user's external continuous control signal. The spot or area fine distribution of the aerosol mist is made by an aerosol distribution system.

**Description**
- Housing (glossy surface) with aerosol outlet pipe made of stainless steel resistant to demineralised water
- Filtration of the intake air via washable grit filter
- Cross flow fan for cooling the electronics and the transport of the aerosol mist out of the outlet pipes
- Central electrical control at the 10 poles plug
- Ultrasonic resonance circuit unit with 1.7 MHz excitation frequency with integrated fuse and temperature control of the power transistors
- Output control via pulse width modulation (PWM)
- Electrical power connection 48 VAC at built-in socket
- Connection possibility for usual control signal e.g. 0-10 VDC, 0-20 mA, 4-20 mA
- Connection possibility for a hygrostat – also 2 steps
- Connection possibility for a safety chain
- Solenoid valve for water supply
- Water supply without any tools via tube connectors for metric tubes/pipes
- Automatic water level control, dry-running protection, overheating protection, overvoltage peak protection, overflow protection, disconnect protection, mains filter

**Scope of delivery**

- UB/P-8 universal humidifier
- Installation and operation instructions
- Water filter for tube D/d = 6/4 mm (incl. 100 mm tube)
- 3 poles part plug, 16 A
- 10-poles plug straight
- Stop cock Ø 6 mm

The universal humidifier UB/P-8-FB is a product of the brand AIRWIN® of BOGA GmbH. It serves for fully automatic generation of aerosol mist from demineralised water according to the ultrasonic principle. The humidifier’s output is adjusted separately by knobs for 2 aerosol outputs each on the wired remote control. The spot or area fine distribution of the aerosol mist is made by an aerosol distribution system.

**Beschreibung**
- Housing (glossy surface) with aerosol outlet pipe made of stainless steel resistant to demineralised water
- Filtration of the intake air via washable grit filter
- Cross flow fan for cooling the electronics and the transport of the aerosol mist out of the outlet pipes
- Electrical power connection 48 VAC at built-in socket
- Central electrical control at the 10 poles plug
- Wired remote control with potentiometers for adjusting the humidifier’s output from 0 to 100% for 2 aerosol outputs each, cable length 2 m
- Ultrasonic resonance circuit unit with 1.7 MHz excitation frequency with integrated fuse and temperature control of the power transistors
- Output control via pulse width modulation (PWM)
- Connection possibility for a limit hygrostat
- Connection possibility for a safety chain
- Solenoid valve for water supply
- Water supply without any tools via tube connectors for metric tubes/pipes
- Automatic water level control, dry-running protection, overheating protection, overvoltage peak protection, overflow protection, disconnect protection, mains filter

**Scope of delivery**
- UB/P-8-FB universal humidifier
- Wired 4 channels remote control with potentiometers
- Installation and operation instructions
- Water filter for tube D/d = 6/4 mm (incl. 100 mm tube)
- 3 poles part plug, 16 A
- 10-poles plug straight
- Stop cock Ø 6 mm

**Product specification**
- Brand: AIRWIN®
- Type: UB/P-8-FB
- Article-no.: 7901508
The universal humidifier UB/P-D8 is a product of the brand AIRWIN® of BOGA GmbH. It serves for fully automatic generation of aerosol mist from demineralised water according to the ultrasonic principle. The humidifier's output is controlled by an external hygrostat (ON – OFF) or by a user's external continuous control signal. The spot or area fine distribution of the aerosol mist is made by an aerosol distribution system.

**Description**
- Housing (glossy surface) with aerosol outlet pipe made of stainless steel resistant to demineralised water
- Filtration of the intake air via washable grit filter
- Cross flow fan for cooling the electronics and the transport of the aerosol mist out of the outlet pipes
- Electrical power connection 48 VAC at built-in socket
- Central electrical control at the 10 poles plug
- Ultrasonic resonance circuit unit with 1.7 MHz excitation frequency with integrated fuse and temperature control of the power transistors
- Output control via pulse width modulation (PWM)
- Connection possibility for usual control signal e.g. 0-10 VDC, 0-20 mA, 4-20 mA
- Connection possibility for a safety chain
- Connection possibility for a hygrostat – also 2 steps
- Solenoid valve combination for water supply and water drainage
- Water supply without any tools via tube connectors for metric tubes/pipes
- Automatic water level control, dry-running protection, overheating protection, overvoltage peak protection, overflow protection, disconnect protection, mains filter
- **AquaDrain**: integrated hygiene management for cyclical flushing of the water inlet pipe and cyclical or permanent emptying of the fluid tank according to pre-set parameters

**Technical Data**
- Max. humidification output: 4 kg/h
- Number of transducers: 8 units
- Power consumption: 310 VA

**Dimensions**
- Installation dimensions humidifier HxWxD: 219 x 799 x 290 mm
- Aerosol outlet pipe: Ø 40 mm
- Water supply tube: Ø 6 mm
- Water overflow/ drainage tube: Ø 12 mm
- Weight: 15 kg

**Operation Conditions**
- Power supply: 48 / 50 V / Hz
- Pure water conductivity: 5...20 µS/cm
- Ambient temperature: 5...45 °C
- Ambient humidity: 0...90 % rH
- Water temperature: 5...40 °C
- Water pressure: 1...4 bar

**Scope of delivery**
- UB/P-D8 universal humidifier
- Installation and operation instructions
- Water filter for tube D/d = 6/4 mm (incl. 100 mm tube)
- Drainage tube Ø 12 mm (consisting of: tube, elbow connection, T-piece, screw-on connector)
- 3 poles part plug, 16 A
- 10-poles plug straight
- Stop cock Ø 6 mm

**Product specification**
